

## **Prepare for Daycare Entry**

Children are accepted into the daycare at the age of 10 months. As your child is getting close to being accepted into the daycare we ask you to prepare your child for our routines. With 12 Infants & Toddlers and 3 staff we cannot change routines for individual children and still offer a structured, quality learning environment for all the children.

We would like you to prepare your children in the following ways

- \* mom available to stop by and nurse, infant used to supplement with a bottle or weaned from daytime nursing
- \*if drinking from a bottle infant needs to be able to hold it themselves
- \*able to eat finger foods
- \*try to get them to one nap per day (as close to 1PM as possible, a short nap before 10Am will be ok)

If you have any questions regarding preparation for daycare entry, please contact the manager at [ferniecc@telus.net](mailto:ferniecc@telus.net)
